一般特性

Conjugated Linoleic Acid

共轭亚油酸

Tonalin® TG 80 is a clear, fully transparent colorless to slightly yellow liquid oil at room temperature with characteristic taste and odor. It is comprised of glycerides containing typically 80% conjugated linoleic acid. Tonalin® TG 80 is derived from safflower oil and contains a 50:50 ratio of the active conjugated linoleic acid isomers (C18:2 c9, t11 and C18:2 t10, c12). It is intended for use in the dietary supplement and food industry*.
